ANNUAL MEETING OF THE SHAREHOLDERS OF TOTAL ENERGY SERVICES INC.

MANAGEMENT INFORMATION CIRCULAR

Solicitation of Proxies

This Management Information Circular (the "Circular") is furnished in connection with the solicitation, by the management ("Management") of Total Energy Services Inc. ("Total Energy" or the "Corporation"), of proxies to be used at the annual meeting (the "Meeting") of the holders (the "Shareholders") of outstanding common shares in the capital of the Corporation (the "Shares"), which Meeting is to be held at the time and place and for the purposes set out in the accompanying Notice of Meeting and this Circular. Solicitation of proxies will be primarily by mail, but may also be undertaken by way of telephone, newspaper advertisement, facsimile, e-mail or oral communication by the directors, officers and employees of the Corporation, at no additional compensation. All costs associated with the solicitation of proxies by or on behalf of Management will be paid by the Corporation.

Appointment and Revocation of Proxies

Daniel K. Halyk is an officer and director of the Corporation and Jeremy Busch-Howell is an officer of the Corporation. **A Shareholder has the right to appoint a person as proxyholder (who need not be a Shareholder), other than Daniel K. Halyk or Jeremy Busch-Howell, to represent such Shareholder at the Meeting.** To exercise that right, a Shareholder should strike out the names of Daniel K. Halyk and Jeremy Busch-Howell on the accompanying Instrument of Proxy and insert the name of the other person in the blank space provided on that Instrument of Proxy. Alternatively, a Shareholder may complete another appropriate form of proxy. A proxy will not be valid unless it is received by the registrar and transfer agent of the Shares, Computershare Trust Company of Canada, Attention: Proxy Department, 100 University Avenue, 8th Floor, Toronto, Ontario, M5J 2Y1. To be valid, a proxy must be received by Computershare Trust Company of Canada not later than 10:00 a.m. (Calgary time) on Friday, May 12, 2023 or forty-eight (48) hours (excluding Saturdays, Sundays and holidays) preceding any adjournment of the Meeting.

A Shareholder who has signed and returned a proxy may revoke that proxy: (a) by signing a proxy bearing a later date and depositing the same with Computershare Trust Company of Canada, at its address set out above, at least forty-eight (48) hours (excluding Saturdays, Sundays and holidays) prior to the commencement of the Meeting or any adjournment thereof; (b) as to any matter on which a vote shall not already have been cast pursuant to the authority conferred by such proxy, by depositing written notice of revocation with Computershare Trust Company of Canada, at its address set out above, or at the registered office of the Corporation, at any time up to and including the last business day preceding the day of the Meeting or any adjournment thereof or by delivering it to the Chair of the Meeting; (c) by attending the Meeting and voting the Shares subject to the applicable proxy; or (d) in any other manner permitted by law.

Voting of Proxies

On any ballot that may be called for at the Meeting, the Management designees named in the accompanying Instrument of Proxy will vote or withhold from voting the Shares in respect of which they are appointed in accordance with the instructions of the Shareholder appointing them, and if the Shareholder specifies a choice with respect to any matter to be acted upon, the applicable Shares will be voted accordingly. **In the absence of such direction, the relevant Shares will be voted FOR: (a) the election of the nominees as directors of the Corporation set forth in this Circular; and (b) the appointment of auditors of the Corporation, all as more particularly described in this Circular.**

Exercise of Discretion by Proxyholders

The accompanying Instrument of Proxy confers discretionary authority upon the persons named therein with respect to amendments or variations to matters identified in the Notice of Meeting and any other matters which may properly be brought before the Meeting. At the date of this Circular, Management knows of no such amendment, variation or other matter to be brought before the Meeting. If other matters are properly brought

before the Meeting, it is the intention of the Management designees named in the accompanying Instrument of Proxy to exercise the voting rights attached to the applicable Shares in their best judgment.

Notice to Beneficial Holders of Shares

The information set forth in this section is of significant importance to many Shareholders, as a substantial number of such Shareholders do not hold Shares in their own name. Shareholders who do not hold their Shares in their own name ("Beneficial Shareholders") should note that only proxies deposited by Shareholders whose names appear on the records of the Corporation (as maintained by the applicable registrar and transfer agent for the Corporation) as the registered holders of Shares can be recognized and acted upon at the Meeting. If Shares are listed in an account statement provided to a Shareholder by a broker, investment dealer, bank, trust company, nominee or other intermediary (each, an "Intermediary"), then in almost all cases those Shares will not be registered in a holder's name on the records of the Corporation. Such Shares will more likely be registered under the name of the holder's Intermediary or an agent of that Intermediary. In Canada, the vast majority of such Shares are registered under the name of CDS & Co. (the registration name for CDS Clearing and Depository Services Inc., which acts as nominee for many Canadian brokerage firms). The majority of Shares held in the United States are registered in the name of Cede & Co., the nominee for the Depository Corporation Company, which is the United States equivalent of CDS Clearing and Depository Services Inc. Shares held by Intermediaries or their nominees can only be voted (for or against resolutions) upon the instructions of the Beneficial Shareholder. Without specific instructions, the Intermediaries and their nominees are prohibited from voting Shares for their clients. The Corporation does not know for whose benefit the Shares registered in the name of CDS & Co. or Cede & Co. are held. **Therefore, Beneficial Shareholders should ensure that instructions respecting the voting of their Shares are communicated to the appropriate person well in advance of the Meeting and should contact their Intermediary promptly if assistance is required.**

Applicable Canadian regulatory policy requires Intermediaries to seek voting instructions from Beneficial Shareholders in advance of Shareholder meetings. Every Intermediary has its own mailing procedures and provides its own return instructions, which should be carefully followed by Beneficial Shareholders in order to ensure that their Shares are voted at the Meeting. Often, the voting instruction form supplied to a Beneficial Shareholder by its Intermediary is identical to the form of proxy provided to registered Shareholders; however, its purpose is limited to instructing the registered Shareholder how to vote on behalf of the Beneficial Shareholder. The majority of Intermediaries now delegate responsibility for obtaining instructions from clients to Broadridge Financial Solutions, Inc. ("Broadridge"). Broadridge typically mails a scannable voting instruction form in lieu of the applicable form of proxy. The Beneficial Shareholder is requested to complete and return the voting instruction form to Broadridge by mail or facsimile. Alternatively, the Beneficial Shareholder can call a toll-free telephone number or access the internet to provide instructions in respect of the Shares held by the Beneficial Shareholder. Broadridge then tabulates the results of all instructions received and provides appropriate instructions respecting the voting of Shares to be represented at the Meeting. A Beneficial Shareholder receiving a voting instruction form cannot use that voting instruction form to vote Shares directly at the Meeting as the voting instruction form must be returned as directed by Broadridge well in advance of the Meeting in order to have the applicable Shares voted at the Meeting.

Although a Beneficial Shareholder may not be recognized directly at the Meeting for the purposes of voting Shares registered in the name of your Intermediary, a Beneficial Shareholder may attend at the Meeting as a proxyholder for the registered shareholder and vote such Beneficial Shareholder's Shares in that capacity. If a Beneficial Shareholder wishes to attend the Meeting and vote such Beneficial Shareholder's own Shares, a Beneficial Shareholder must do so as proxyholder for the registered shareholder. To do this, a Beneficial Shareholder should contact their Intermediary well in advance of the Meeting.

Record Date and Entitlement to Voting

The close of business (Calgary time) on March 29, 2023 (the "Record Date") has been established as the record date for purposes of determining Shareholders entitled to receive notice of and to attend and vote at the Meeting. Each Shareholder of record at the close of business on the Record Date is entitled to receive notice of and to attend and vote at the Meeting, except to the extent that: (a) the Shareholder has transferred any of his/her/its Shares after the Record Date; and (b) the transferee of those Shares produces properly endorsed share certificates or otherwise

establishes that he/she/it owns the Shares, and demands, not later than ten (10) days before the Meeting that his/her/its name be included in the list of Shareholders, in which case the transferee will be entitled to receive notice of and to vote his or her Shares at the Meeting or any adjournment thereof.

In the case of Shares that are registered jointly in the names of more than one person, any one of such persons may vote the Shares at the Meeting in person or by proxy. If, however, more than one of them shall be present at the Meeting, in person or by proxy, and such joint owners (or the applicable proxyholders) disagree as to any vote to be cast, the joint owner present (or represented by proxy) whose name appears first in the register of Shareholders maintained by the registrar and transfer agent of the Shares will be entitled to cast such vote.

Each Share carries the right to one vote on any matter properly brought before the Meeting.

As at April 3, 2023, there were 40,525,000 Shares issued and outstanding. To the knowledge of the directors and officers of the Corporation, as at the date hereof, no person or company beneficially owns, or controls or directs, directly or indirectly, Shares carrying 10% or more of the voting rights attached to the Shares which may be cast at the Meeting, except as follows:

Information as to Shares beneficially owned is not within the knowledge of the Corporation and information as to beneficial ownership of securities set out in this Circular has been obtained from third party sources.

MATTERS TO BE CONSIDERED AT THE MEETING

The business of the Meeting is to: (a) receive the audited consolidated financial statements of the Corporation for the immediately preceding fiscal year; (b) elect the directors of the Corporation for the ensuing year; (c) appoint the auditors of the Corporation for the ensuing year; and (d) conduct any other business as may be properly brought before the Meeting.

Consolidated Financial Statements

The consolidated financial statements of the Corporation as at and for the year ended December 31, 2022, together with the auditors' report thereon, will be placed before the Meeting and are included in the Corporation's 2022 Annual Report to Shareholders. No action by Shareholders is required at the Meeting in respect of such financial statements and auditors' report thereon.

Election of Directors

At the Meeting, Shareholders will be asked to consider and, if thought fit, pass an ordinary resolution electing each of the directors of the Corporation for the ensuing year. **Management intends to nominate and, unless otherwise directed, the Management designees named in the accompanying form of proxy intend to vote FOR the election of each of the individuals named below as directors of the Corporation for the ensuing year.**

All of the proposed nominees have consented to be named in this Circular, to stand for election and to serve as directors if elected. Each director elected will hold office until the close of the next annual meeting of Shareholders.

The articles of the Corporation stipulate there shall not be more than fifteen or fewer than three directors. There are currently six directors. In accordance with the by-laws of the Corporation, the board of directors of the Corporation (the "Board of Directors") has determined that six directors will be elected to serve for the ensuing year. There are six proposed nominees.

The accompanying form of proxy permits Shareholders to vote "for" or to "withhold" their vote for each nominee director. The Board of Directors has adopted a policy relating to the election of directors of the Corporation, which contemplates that any nominee who, on a ballot taken on the election of directors, has a greater number of votes withheld from voting than the number of votes received for his or her election shall tender his or her resignation to the Chair of the Board of Directors, subject to acceptance by the Board of Directors. Under the policy, the Corporate Governance and Nominating Committee is directed to consider any such resignation, having regard in its assessment to the best interests of the Corporation and any other factors considered relevant and to make a recommendation to the Board of Directors with respect to the resignation. The policy contemplates that the Board of Directors will make a determination with respect to the resignation and announce its decision in a news release within 90 days of the applicable annual meeting. A director who tenders his or her resignation under the policy shall abstain from any deliberations of the Corporate Governance and Nominating Committee or the Board of Directors relating to the resignation, unless the presence of the affected director at a meeting of the Corporate Governance and Nominating Committee or the Board of Directors is required to satisfy quorum requirements. If a resignation is accepted, the Board of Directors may fill the vacancy created by the resignation. Alternatively, the Board of Directors may determine to leave the resulting vacancy unfilled.

Proposed Nominees

The following table sets out the name and principal occupation of each proposed nominee, the period during which each proposed nominee has served as a director of the Corporation (including periods served as a director of predecessors of the Corporation) and the number of Shares beneficially owned by each proposed nominee (or over which each proposed nominee exercises control or direction) as at the date hereof.

The Chair of the Board also receives an additional annual fee of \$20,000. The Corporation mandates that each director of the Corporation purchase and hold a minimum of \$100,000 worth of Shares, as at the time of purchase, with such minimum ownership requirement being satisfied within five years of becoming a director of the Corporation, save and except for Mr. Halyk, whose ownership requirements are a minimum of 5 times his annual base salary, as at the time of purchase.

Directors also participate in the Corporation's Long Term Incentive Plan ("LTIP"). The principal purposes of the LTIP are to develop the interest of the directors in the growth and development of the Corporation by providing such persons with the opportunity to acquire an increased proprietary interest in the Corporation and to better enable the Corporation and its subsidiaries to attract and retain persons of desired experience and ability. Pursuant to the LTIP, an annual allocation of Shares is made by the Board of Directors, on the recommendation of the Compensation Committee, to LTIP participants based on the advice of the Compensation Committee. The current annual allocation of Shares for directors under the LTIP is determined by dividing \$60,000 by the weighted average price of the Shares for the month of June. Each participant's aggregate entitlement vests quarterly over three years. Vested LTIP entitlement must be exercised within the quarter and each LTIP participant is responsible for purchasing his respective LTIP allocation in the open market and is reimbursed by the Corporation in respect of such purchases. Each LTIP participant meeting the minimum share ownership level has the option to elect a cash settlement for LTIP participation.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

The Compensation Committee of the Board of Directors is responsible for approving the goals and objectives of the Corporation's President and Chief Executive Officer, reviewing and recommending to the Board of Directors the remuneration of the Named Executive Officers (as defined below), developing compensation policies and reviewing succession planning. Members of the Compensation Committee as at December 31, 2022 were Jessica Kirstine (Chair), Gregory Melchin and George Chow. Each is independent within the meaning of National Instrument 58-101 – *Disclosure of Corporate Governance Practices* ("NI 58-101"). The members of the Compensation Committee each have experience in leadership roles, broad knowledge of the energy industry and tenure as executives or directors of various public and private organizations. This background provides the Compensation Committee with the collective skills and experience to carry out its mandate effectively.

Compensation Philosophy and Objectives

The philosophy adopted by the Board of Directors in respect of compensation matters is to establish, to the extent reasonably possible, objective criteria that motivate senior Management and are consistent with industry and Shareholder expectations. The Corporation's compensation program is designed to encourage performance that the Compensation Committee believes is in the best long-term interests of Shareholders. The Compensation Committee believes that overall levels of compensation should be primarily related to success in meeting specific, predetermined corporate objectives. The primary objective of the Corporation is to generate an industry leading return on invested capital while at the same time establishing and maintaining financial strength and flexibility and operating in a safe and efficient manner. The Corporation's compensation practices are ultimately structured to encourage achievement of this primary objective. In addition, the Compensation Committee strives to ensure that the compensation program appropriately limits risk taking on the part of Management. This risk mitigation is achieved in part by balancing short and long-term incentives, using staged vesting of stock options and imposing meaningful share ownership requirements.

The objectives of the Corporation's compensation program are to: (a) provide competitive compensation in order to enable the Corporation to attract, retain and motivate the executive personnel necessary to achieve the short and long-term business goals of the Corporation; (b) encourage individual performance and achievement of corporate objectives; and (c) align the interests of Management with the interests of the Shareholders.

Base compensation levels, including salaries, benefits and perquisites should be generally competitive but moderate and target median levels relative to comparable organizations. The incentive portion of the compensation program is intended to encourage and reward superior annual performance with respect to value creation and capital efficiency, net capital asset growth, achievement of health and safety goals and objectives, individual performance and other contributions to the success of the Corporation.

The Compensation Committee's objective is to develop a balance between short-term compensation and long-term compensation. Short-term compensation (such as cash) rewards current performance and long-term compensation (such as equity which vests over time) serves as a retention tool and encourages executive officers to produce positive long-term results and align their interests with those of Shareholders. Further, the Corporation mandates that the Chief Executive Officer purchase and hold Shares equivalent in value to five times his annual base salary, as at the time of purchase, and that the other senior executives each purchase and hold Shares equivalent in value to three times his or her annual base salary, as at the time of purchase. The elements of the Corporation's compensation program are designed to promote the objectives of the Corporation's compensation program as a whole and balance these interests. The Compensation Committee does not expect any significant changes to its compensation policies and practices in 2023.

The Compensation Committee conducts an annual review to consider and, if necessary, adjust executive compensation. In conducting its review, the Compensation Committee compares current compensation levels with published industry surveys and internal reviews of industry competitors, and, if considered necessary, engages specialists in human resources and compensation to augment this comparative analysis. In addition, the Chief Executive Officer provides an individual performance review for each officer, excluding himself. The Chair of the Compensation Committee, together with the Chair of the Board of Directors, conducts a performance review of the Chief Executive Officer. Through this process, individual salary levels are determined and, if warranted by the objective criteria set forth in the formal bonus plan or by specific achievements beyond such plan, bonuses are awarded. Based upon the recommendation of the Compensation Committee, the compensation of the Chief Executive Officer, the Chief Financial Officer, the Vice President, Operations, the Vice President, Legal, General Counsel and Corporate Secretary and the Vice President, Drilling Services is reviewed and, if considered appropriate, approved by the Board of Directors.

The Corporation has not retained a compensation consultant or advisor at any time during the most recently completed financial year.

Elements of the Corporation's Compensation Program

There are three components to the Corporation's compensation program. These consist of an annual base compensation, an annual incentive bonus and a long-term incentive plan.

The overall compensation decision in respect of individual executives begins with consideration of an appropriate base level of compensation (which includes base salary, perquisites and other benefits generally available to all employees). The annual incentive bonus component is determined having regard primarily to the relative success of the executive team in meeting and achieving predetermined criterion designed to measure executive performance. The annual incentive bonus component is limited in the case of each executive to a percentage of base salary. The long-term incentive plan consists of the granting of share options ("Share Options") pursuant to the Corporation's share option plan (the "Share Option Plan"), a share purchase assistance plan and an employee savings plan.

Annual Base Compensation

The Chief Executive Officer reviews and recommends the base salary for each of the Corporation's executive officers (other than with respect to the Chief Executive Officer), which recommendations are reviewed and considered by the Compensation Committee which, in turn, submits its recommendations to the Board of Directors for a final determination. Compensation of the Chief Executive Officer is determined by the Compensation Committee following discussions with the Chief Executive Officer and recommendations are subsequently submitted for approval by the Board of Directors. Base salary recognizes and compensates executive officers for their position, experience and professional qualifications and the level of responsibility of the position.

When considering adjustments to the base salaries of the executive officers, the Compensation Committee and the Board of Directors review and discuss data on salaries in the oil and gas services industry generally and consider the current and prospective business and operating environment. The Compensation Committee also reviews, with the Chief Executive Officer, the experience and responsibilities of each of the executives in relation to salary recommendations for all executive officers other than himself. The purpose of base salary is to create cash compensation for executive officers that is competitive in the industry and will enable the Corporation to attract, motivate, and retain high quality executives.

The Corporation's general approach is to target base salaries at the median as determined by reference to the Petroleum Services Association of Canada's Annual Compensation Survey report of compensation practices in the Canadian oil and gas services sector, with annual and long-term incentives intended to provide exceptional performers the opportunity to realize gains above the median when identified personal and corporate objectives are met and exceeded.

The executive officers also participate in other group benefit plans, including life insurance, disability insurance and health and dental insurance that are available to all employees of the Corporation and its subsidiaries. Certain of the executive officers also have the use of vehicles that are provided by the Corporation (except for the President and Chief Executive Officer and the Vice President, Legal, General Counsel and Corporate Secretary who are responsible for providing their own vehicles) and are provided with parking and certain club memberships. The specifics of these perquisites are enumerated in the discussion below of each executive officer's employment agreement with the Corporation. During 2022, the Compensation Committee did not make any changes to the other perquisites that the executive officers receive.

Annual Incentive Bonus

The Corporation provides annual incentive compensation to executive officers in the form of cash. The annual incentive bonus is intended to provide the opportunity for executive officers to realize additional gains when the Corporation's annual performance objectives are met or exceeded and/or when their individual job performance is exceptional based on an annual formal performance review.

The current annual bonus plan provides that bonuses for senior executives will be based on four criteria:

- 1) Economic Profit – achieving an incremental return that meets or exceeds the Corporation's weighted average cost of capital;
- 2) Health, Safety and Environmental ("HSE") Performance – consideration of key HSE performance metrics being in line with expectations;
- 3) Capital Asset Growth – increase to capital assets by organic growth and/or acquisitions; and
- 4) Individual Performance – evaluation of individual performance based on mutually agreed upon goals and objectives.

All senior executives have the same weighting applied for each of the four criteria. Economic Profit is given the largest weighting at 50% as it generally indicates how successful the Corporation has been in investing its capital, managing its operations and creating shareholder value. Economic Profit is calculated by deducting the Corporation's weighted average cost of capital ("WACC") from the Corporation's net operating profit after-tax ("NOPAT") expressed as a percentage of the average amount of the Corporation's invested capital for the year ("NOPAT Return"). The calculation of NOPAT and invested capital is based on the Corporation's audited annual financial statements and is confirmed by the Corporation's external auditor in the event that Economic Profit is positive. The Corporation's WACC is determined annually by an independent investment banking firm. The bonus percentage is earned if the Corporation's NOPAT Return meets or exceeds WACC.

The HSE Performance bonus component creates incentives for ever-improving health, safety and environmental performance and is given a weighting of 15%. The HSE Performance bonus component is calculated by considering the Corporation's Total Recordable Incident Frequency ("TRIF") and applying certain thresholds. No bonus is earned if the Corporation experiences a fatality. If no fatality, 50% of this bonus component is earned if the annual TRIF is below 2.50. If no fatality and the annual TRIF is below 2.50, an additional 25% of the bonus component will be earned if the TRIF is within 110% of the previous year. Finally, if all three of the previous thresholds were met, the remaining 25% of the bonus component will be earned if TRIF was less than the previous year.

Capital Asset Growth is given a weighting of 10%. Capital Asset Growth is a measure of how successful the Corporation is in deploying capital in order to meet its growth objectives. Capital Asset Growth is calculated by determining the annual percentage increase to capital assets. No bonus percentage for this component is earned if Capital Asset Growth is less than 10%, 25% of the bonus is earned if Capital Asset Growth meets or exceeds 10% with a sliding scale such that the full 100% bonus is earned where Capital Asset Growth is 15% or greater.

Individual Performance comprises a 25% weighting of the total bonus. Annually, the Chief Executive Officer's performance will be evaluated by the Compensation Committee and the other senior executives will be evaluated by the Chief Executive Officer. In addition to other quantitative and qualitative factors such as a track record of integrity and leadership, good judgment, the vision and ability to manage the Corporation and to create sustainable growth, the following table sets out the individual performance goals for each of the officers set forth therein.

Name	Goals
Daniel K. Halyk President and Chief Executive Officer	Direct the overall business activities and organizational policies with the objective of generating an industry leading and sustainable return on invested capital.
Yuliya Gorbach Vice President, Finance and Chief Financial Officer	Ensure the accuracy and timeliness of all financial reporting. Provide overall direction for accounting, budgeting, tax, treasury and credit functions.
Bradley J. Macson Vice President, Operations	Develop and implement operating policies and procedures to maximize operational efficiencies and achieve health, safety and environmental goals and objectives.
Jeremy Busch-Howell Vice President, Legal, General Counsel and Corporate Secretary	Ensure legal and regulatory compliance and provide efficient legal and regulatory support throughout the organization.
William Kosich Vice President, Drilling Services	Develop and maintain long-term, collaborative relationships with key stakeholders, including employees, customers, suppliers and regulatory agencies to enhance field operations and seek out opportunities for revenue growth and cost efficiencies.

By placing emphasis on variable compensation, the Corporation aims to tie a portion of the total executive compensation package to improvements in the Corporation's absolute and relative performance and consequently, the value of the Shares.

Long Term Incentives

The long-term incentive plan consists of the granting of Share Options pursuant to the Share Option Plan, a share purchase assistance plan and an employee savings plan.

Share Purchase Assistance Plan

The share purchase assistance plan (the "SPAP") was adopted by the Corporation in 2005, under which the Corporation has agreed to reimburse participants for interest charged on a personal loan if the proceeds of such loan are used by the participant to purchase Shares in the market. The SPAP was implemented to assist senior executives and divisional general managers to increase their economic interest in the Corporation and therefore better align their interests with the interests of Shareholders.

The Corporation mandates that the Chief Executive Officer purchase and hold Shares equivalent in value to five times his annual base salary, as at the time of purchase, and that the Chief Financial Officer, the Vice President, Operations, the Vice President, Legal, General Counsel and Corporate Secretary and the Vice President, Drilling Services each purchase and hold Shares equivalent in value to three times his or her annual base salary, as at the time of purchase.

The personal loans are provided to participants by a Canadian chartered bank and participants are required to satisfy the credit and other conditions or requirements imposed by such Canadian chartered bank. The Corporation does not, directly or indirectly, extend or maintain credit or arrange for the extension of credit and does not guarantee or otherwise provide security for the personal loans. Participants are required to apply any dividends paid on the Shares purchased with the personal loan pursuant to the SPAP towards repayment of the personal loan. The Corporation's obligation to reimburse participants for interest generally continues for approximately four years from the date of the loan and is subject to earlier termination upon resignation of the participant from the Corporation and upon termination for cause. During the year ended December 31, 2022, an aggregate of \$17,435 was paid by the Corporation to participants in the SPAP (the entirety of which was paid in favour of the Named Executive Officers as a group).

Share Option Plan

In order to provide a long-term component to the executive compensation program, certain officers and employees are granted Share Options pursuant to the Share Option Plan from time to time. The Share Option Plan was approved by the Shareholders at the Corporation's annual and special meeting on May 21, 2015 and was amended on June 27, 2017, May 15, 2019 and August 18, 2022. Such amendments were to: (a) increase the number of Shares reserved for issuance under the Share Option Plan, (b) remove consultants as participants in the Share Option Plan; (c) amend the amending provisions of the Share Option Plan to specify the types of amendments that require approval of Shareholders; (d) as described in more detail under the heading "Net Settlement Rights" below, to include net settlement rights; and (e) make certain amendments of a procedural or "housekeeping" nature.

A summary of the Share Option Plan is set out below, which is qualified in its entirety by the full text of the Share Option Plan.

Purpose. The principal purposes of the Share Option Plan are:

- (a) to enable the Corporation (and its affiliates) to attract and retain qualified officers and employees;
- (b) to promote a proprietary interest in the Corporation on the part of officers and employees of the Corporation (and its affiliates), by providing such persons with the opportunity to acquire an equity

interest in the Corporation or augment their equity interest in the Corporation, as the case may be; and

- (c) to provide an additional incentive to officers and employees in their efforts on behalf of the Corporation (and its affiliates).

Eligible Participants. Under the Share Option Plan, the Board of Directors may, from time to time, issue Share Options to officers and employees of the Corporation (and its affiliates) and to corporations that are controlled by any such officers and employees. However, non-Management directors of the Corporation are not eligible to receive grants of Share Options under the Share Option Plan.

Fixed Maximum Plan. The maximum number of Shares reserved for issuance pursuant to Share Options granted under the Share Option Plan may not exceed 4,575,000 Shares. As at April 3, 2023, an aggregate of 2,881,664 Shares which are subject to Share Options granted under the Share Option Plan were outstanding representing 7.1% of the issued and outstanding Shares at such date. As at April 3, 2023, 1,413,332 Shares remain issuable on further grants under the Share Option Plan.

Maximums. The number of Share Options are subject to the following restrictions: (a) no one Share Option holder shall be granted Share Options that, when combined with any other security based compensation arrangement of the Corporation, would entitle the Share Option Holder to purchase more than 5% of the number of issued and outstanding Shares of the Corporation; (b) the number of Shares reserved at any time for issuance to insiders pursuant to Share Options, when combined with the number of Shares issuable to insiders pursuant to all other security based compensation arrangements of the Corporation, shall not exceed 10% of the number of issued and outstanding shares of the Corporation; and (c) the number of Shares issued to insiders pursuant to the exercise of Share Options, within any one-year period, when combined with the number of Shares issuable to insiders pursuant to all other security based compensation arrangements of the Corporation, shall not exceed 10% of the number of issued and outstanding Shares.

Exercise Price. The exercise price of each Share Option is determined by the Board of Directors at the time such Share Option is granted, provided that it is not less than the market price. The market price is the five (5) day weighted average trading price of the Shares on the TSX, calculated as of the close of trading on the last trading day prior to the date the Share Option is granted; provided that in the event the Shares are not listed on any exchange at the time Share Options are granted hereunder, the exercise price will not be less than the market price determined by the Board of Directors.

Vesting. All Share Options vest and are exercisable from time to time, as determined by the Board of Directors. All of the Share Options granted by the Board of Directors are currently subject to time-based vesting criteria.

Net Settlement Rights. On August 18, 2022, the Share Option Plan was amended by the Board of Directors to provide that, at the discretion of the Board of Directors (or applicable committee thereof to which administration of the Share Option Plan is delegated), Share Options to purchase Shares may have associated with them net settlement rights ("Net Settlement Rights") in respect of the Shares covered by such Share Options. Provided the outstanding Shares are listed and posted for trading on the TSX, Net Settlement Rights shall entitle the holder of the Share Options, at his or her sole discretion, to surrender to the Corporation, unexercised, the right to exercise Share Options to purchase a specified number of Shares and to receive in exchange a number of Shares equal in value to the Appreciated Value (as defined below), less required applicable statutory and other withholdings. Net Settlement Rights shall be subject to the same terms and conditions as the related Share Options. For the purposes of the Share Option Plan, "Appreciated Value" means an amount equal to the excess of the closing price of the Shares on the TSX on the last trading day preceding the date of surrender of the Share Options and contemporaneous exercise of the associated Net Settlement Rights, above the exercise price of such Share Options, then multiplied by the number of Share Options surrendered.

Expiry. All Share Options are subject to a fixed term, which shall be no greater than ten (10) years (or such longer period as is permitted by the TSX). Unless otherwise determined by the Board of Directors, if any Share Option is scheduled to expire: (a) at a time when the holder of the Share Option is subject to restrictions on trading securities of the Corporation under a trading "blackout" established by the Corporation; or (b) within five (5) business days after the termination of such blackout period, the Share Option will, notwithstanding the scheduled expiry date of such Share Option, expire as of the date that is ten (10) business days following the end of such applicable blackout period and shall be exercisable by the holder at any time up to the applicable time on such revised expiry date.

Cessation of Entitlement. The Board of Directors has the authority, subject to the provisions of the Share Option Plan, to determine all of the terms and conditions of Share Options and may determine that: (a) a Share Option is exercisable only during the term of employment and for a limited period of time after termination; (b) a Share Option can be exercised for a period of time, or for its remaining term, after the death, incapacity or permanent disability of a Share Option holder; (c) if a Share Option holder ceases to be an officer or employee or a service provider for any reason whatsoever (other than as a result of death, incapacity or permanent disability), the Share Option holder may only exercise his or her Share Options before the earlier of ninety (90) (or fewer) days after such cessation and the expiry date; and (d) in the event of the death, incapacity or permanent disability of a Share Option holder, vested Share Options will continue to be exercisable only before the earlier of twelve (12) months (or sooner) after the date of death, incapacity or permanent disability and the expiry date.

Anti-Dilution Provisions. The Share Option Plan contains anti-dilution provisions, which permit the Board of Directors to make adjustments to the Share Option Plan and the Share Options granted under the Share Option Plan in certain circumstances to prevent substantial dilution or enlargement of the rights granted to, or available for, holders of Share Options. These adjustments may be made in the following circumstances: (a) any change in the Shares through subdivision, consolidation, reclassification, amalgamation, merger or otherwise; (b) any stock dividend paid to holders of Shares (other than such stock dividends issued at the option of Shareholders in lieu of substantially equivalent cash dividends); (c) any rights are granted to all or substantially all of the holders of Shares to purchase Shares at a price less than 85% of the fair market value of the Shares at the date of grant; or (d) as a result of any recapitalization, merger, consolidation or otherwise, the Shares are converted into, or exchanged for, any other shares.

Take-Over of the Corporation. The Share Option Plan provides that all outstanding unexercised and unvested Share Options shall vest and become immediately exercisable in the event an "unsolicited offer" is made to purchase outstanding Shares. For purposes of the Share Option Plan, an "unsolicited offer" is an offer to purchase Shares made generally to the holders of those Shares that is in the nature of a formal takeover bid, in respect of which neither the Board of Directors nor Management solicited, sought out or otherwise arranged for the making of the offer.

The Share Option Plan also includes a right of the Corporation to terminate all outstanding Share Options in the following circumstances:

- (a) the acquisition by any person or any group of persons acting jointly or in concert within the meaning of applicable securities laws (the "offeror"), directly or indirectly, of such number of Shares as entitles the offeror to acquire, pursuant to the compulsory purchase provisions of the *Business Corporation Act* (Alberta), or such other governing legislation as may apply to the Corporation at the time, all remaining Shares not already acquired by the offeror, or
- (b) the receipt of all required shareholder, regulatory and court approvals, as applicable, for an amalgamation, arrangement, consolidation, merger or other business combination pursuant to which the offeror will, directly or indirectly, upon completion thereof, acquire all of the issued and outstanding Shares.

Holders of Share Options that are terminated by the Corporation in such circumstances are entitled to receive compensation for the in-the-money amount of the terminated Share Options, having regard to the consideration to be paid to Shareholders generally under the applicable transaction.

Non-Assignability. Share Options cannot be assigned or transferred by a Share Option holder except for: (a) a limited right of assignment to allow the exercise of Share Options by a holder's heirs, executor or legal representative in the event of death, incapacity or permanent disability, subject to the terms upon which the Share Option is granted; and (b) with the approval of the Board of Directors and the TSX (if required), a right to transfer such Share Options to a corporation controlled by the holder and wholly-owned by the holder and/or his or her spouse and/or children.

Financial Assistance. The Corporation does not provide any financial assistance to Share Option holders for the exercise of Share Options.

Amendments. The Corporation retains the right, subject to TSX approval, to amend the Share Option Plan by resolution of the Board of Directors. More specifically, the Board of Directors shall have the power and authority to approve amendments to the Share Option Plan or to Share Options, without further approval of the Shareholders, including, without limitation, to the extent that such amendment: (a) is for the purpose of curing any ambiguity, error or omission in the Share Option Plan or to correct or supplement any provision of the Share Option Plan that is inconsistent with any other provision of the Share Option Plan; (b) is necessary to comply with applicable law or the requirements of any stock exchange on which the Shares are listed; (c) is an amendment to the Share Option Plan respecting administrative matters; (d) changes the vesting provisions of any Share Option; (e) changes the termination provisions of a Share Option or the Share Option Plan in a manner that does not entail an extension of any Share Option beyond its original expiry date; or (f) is an amendment of a housekeeping nature. However, the Board may not make any amendments to the Share Option Plan, without approval of the Shareholders, that: (a) increase the number of Shares reserved for issuance; (b) reduce the Exercise price of any Share Option; (c) cancel or reissue any Share Option; (d) extend the term of any Share Option beyond the original expiry of such Share Option; (e) add any form of financial assistance by the Corporation for the exercise of Share Options; (f) result in dilution of the number of outstanding Shares or any material benefit to an eligible participant; (g) expands the circumstances under which Share Options may be assigned or transferred; (h) would broaden or increase insider participation; or (i) change the amending provisions.

Employee Savings Plan

The employee savings plan was established for the benefit of all Canadian based employees of the Corporation and its subsidiaries. The employee savings plan is intended to increase the economic interest of employees in the Corporation and to thereby further align the interests of employees with the interests of Shareholders. Employees are generally required to complete three months of service to become eligible to participate in the employee savings plan.

Under the employee savings plan for Canadian-based employees, if the employees (including the Named Executive Officers) elect to contribute a portion of their salary to the employee savings plan, a contribution of 1.5 times that amount is made by the Corporation. The maximum amount that may be contributed by an employee ranges from 2% to 6% of the employee's base compensation, depending upon the number of years of participation in the plan. Contributions made by employees are deposited directly into an individual savings plan maintained by a third-party retirement savings company on each individual's behalf, and employees have the option to direct their investment into numerous funds. Contributions provided by the Corporation are forwarded to an account manager and deposited into individual investment accounts for the benefit of participating employees. Those contributions are used by the account manager to purchase Shares in the market.

During the year ended December 31, 2022, an aggregate of \$2,309,967 was contributed to the Savings Plan by the Corporation by way of matching contributions of employees (\$91,894 of the aggregate amount was contributed in respect of the Named Executive Officers as a group).

Notes:

- Figures shown represent the aggregate of amounts paid to Mr. Halyk and to Myrdan Investments Inc., a management consulting corporation wholly-owned by Mr. Halyk. Mr. Halyk did not receive any compensation in his capacity as a member of the Board of Directors.
- The Corporation has calculated the grant date fair value of the Share Options granted to Named Executive Officers using the Black-Scholes-Merton model. The Corporation chose this methodology because it is recognized as the most common methodology used for valuing options and doing value comparisons. The Black-Scholes-Merton assumptions used for 2022 are: (i) an initial expected life of 3-5 years; (ii) an expected annual dividend of \$0.24 per Share; (iii) a forfeiture rate of 11%; (iv) a range of volatilities of 40.94% to 52.35%; and (v) a range of risk-free interest rates from 3.34% to 3.82%. The Black-Scholes-Merton assumptions used for 2021 are: (i) an initial expected life of 3-5 years; (ii) no expected annual dividend; (iii) a forfeiture rate of 12%; (iv) a range of volatilities of 41.26% to 46.68%; and (v) a range of risk-free interest rates from 0.19% to 1.11%. The Black-Scholes-Merton assumptions used for 2020 are: (i) an initial expected life of 3-5 years; (ii) no expected annual dividend; (iii) a forfeiture rate of 14%; (iv) a range of volatilities of 38.79% to 44.38%; and (v) a range of risk-free interest rates from 0.30% to 0.41%.
- Non-equity incentive plan compensation consists of annual incentive bonuses described herein and long-term incentive plans. Long-term incentive plans consist of the SPAP. In connection with the SPAP, the Corporation made reimbursement payments to Ms. Gorbach in 2022, 2021 and 2020 in the amounts of \$17,435, \$14,705 and \$24,642, respectively and to Mr. Kosich in 2022, 2021 and 2020 in the amount of nil, \$1,445 and \$14,627, respectively. Ms. Gorbach's and Mr. Kosich's SPAP loans were fully repaid during 2022 and 2021, respectively. Additional information in respect of the SPAP is set out under the heading "Executive Compensation – Compensation Discussion and Analysis – Elements of the Corporation's Compensation Program – Share Purchase Assistance Plan".
- Other compensation includes the employee savings plan. The Corporation does not have a pension plan.
- Mr. Danyluk resigned as Vice President, Legal, General Counsel and Corporate Secretary effective August 19, 2022. Mr. Busch-Howell was appointed Vice President, Legal, General Counsel and Corporate Secretary effective October 4, 2022.
- Mr. Busch-Howell received a \$50,000 signing bonus on the commencement of his employment on October 4, 2022 in partial recognition of forfeited compensation as a result of leaving his previous employment.

Summary of Employment Agreements with the Named Executive Officers

Mr. Daniel Halyk

Mr. Halyk is party to an Employment Agreement with the Corporation (the "Halyk Agreement") dated effective as of March 16, 2012 and which extends indefinitely, unless terminated by either party in accordance with the terms of the agreement. Myrdan Investments Inc. ("Myrdan"), a management consulting corporation wholly owned by Mr. Halyk, entered into a consulting agreement with the Corporation (the "Myrdan Agreement") dated effective as of March 16, 2012 and which extends indefinitely, unless terminated by either party in accordance with the terms of the agreement.

Under the Halyk Agreement, Mr. Halyk receives an annual salary (the "DH Annual Salary") of \$190,000 and the Myrdan Agreement provides for an annual base payment of \$110,000. The Myrdan Agreement requires Myrdan to provide Mr. Halyk with certain management support services and a vehicle at no additional cost to the Corporation, although the Corporation reimburses Myrdan and Mr. Halyk for vehicle operating costs incurred in the course of providing services to the Corporation.

The Halyk Agreement and the Myrdan Agreement also provide for the payment of an annual bonus of up to 225% of Mr. Halyk's annual salary and Myrdan's annual base payment (the "DH Annual Bonus"). The DH Annual Bonus is in the discretion of the Board of Directors having regard to the recommendation of the Compensation Committee and is predicated on the continued employment of Mr. Halyk as well as achievement of certain objectives as described above under the heading "*Annual Incentive Bonus*". Mr. Halyk is entitled to participate in all employee benefit plans including the Savings Plan, is entitled to five weeks of paid vacation per year and shall be reimbursed for all travel and other expenses reasonably incurred in the performance of his duties on behalf of the Corporation.

The Halyk Agreement and the Myrdan Agreement provide for termination by the Board of Directors at any time, without notice, for just cause. If the termination is for any other reason except just cause, normal retirement or permanent incapacity, the Corporation is required to pay to Mr. Halyk and Myrdan a lump sum payment equivalent to two times the annual salary and annual base payment, respectively.

In the event of an unsolicited change of control of the Corporation, should, within 90 days following such change of control, the Myrdan Agreement or Halyk Agreement be terminated without cause or should Mr. Halyk voluntarily resign, Mr. Halyk and Myrdan shall be paid a lump sum payment equal to two times Mr. Halyk's annual salary and Myrdan's annual base payment, respectively. An unsolicited change of control is generally defined as an event(s) in which control of 50% or more of the voting securities are transferred to a third-party pursuant to transaction(s) which have not been approved of or recommended by a majority of the independent directors of the Corporation.

Pursuant to the Halyk Agreement, Mr. Halyk's annual salary is to be reviewed annually and may be increased at the discretion of the Board of Directors. Mr. Halyk's annual salary and Myrdan's annual base payment were last increased on January 1, 2023.

The Halyk Agreement also provides that during the course of his employment with the Corporation and for a period of three months from the date of voluntary termination of his employment by Mr. Halyk, or for termination of his employment by the Corporation for just cause, Mr. Halyk would be prohibited, without the written consent of the Corporation, from directly or indirectly as principal, agent, owner, partner, shareholder, officer, employee or otherwise, own, operate, be engaged in the operation of or have any financial interest in any business operation similar to or in competition with the business of the Corporation in the geographical areas in which the Corporation operates, provided that he would not be prohibited from owning less than 5% of the outstanding voting securities of a public company engaged in such business.

Further, long-term incentives are primarily a direct result of share price performance creating further correlation between compensation and Share price.

From December 31, 2017 until December 31, 2022, assuming reinvestment of all dividends and distributions, cumulative total shareholder return on the Shares was approximately -37% as compared to a cumulative total return of 39% on the S&P/TSX Composite Index and -92% on the TSX Oil & Gas Equipment and Services Index, over the same period. Directors are encouraged and invited to enhance their education by taking courses and attending seminars and lectures relevant to their role as directors and committee members. Operations management personnel are periodically invited to attend meetings with the directors and the directors visit operations locations on occasion to maintain and improve the directors' knowledge of the Corporation's business.</p>
<p>5. Ethical Business Conduct</p>	<p>The Board of Directors has adopted a written Code of Business Conduct (the "Code").</p>

(i) disclose how a person or company may obtain a copy of the code;	The Code has been filed on SEDAR and is available at www.sedar.com and on the Corporation's website at www.totalenergy.ca .
(ii) describe how the Board of Directors monitors compliance with its code, or if the Board of Directors does not monitor compliance, explain whether and how the Board of Directors satisfies itself regarding compliance with its code; and	The Board of Directors monitors compliance with the Code by requiring quarterly certifications from its senior officers as to their compliance with the Code and through the Corporation's existing "whistleblower" policy, which provides a procedure for the submission of information by persons relating to possible violations of the Code.
(iii) provide a cross-reference to any material change report filed since the beginning of the issuer's most recently completed financial year that pertains to any conduct of a director or executive officer that constitutes a departure from the Code.	No material change reports pertaining to conduct of a director or executive officer constituting a departure from the Code were filed during 2022.
b. Describe any steps the Board of Directors takes to ensure directors exercise independent judgment in considering transactions and agreements in respect of which a director or executive officer has a material interest.	Directors who have, or may be reasonably perceived to have, a personal interest in a transaction or agreement being contemplated by or involving the Corporation are required to declare such interest at any meeting of the Board of Directors at which the matter is considered and to refrain from voting on such matter. If required, an independent committee may be formed to consider such matters in the absence of interested directors and make recommendations to the Board of Directors.
c. Describe any other steps the Board of Directors takes to encourage and promote a culture of ethical business conduct.	The Code is provided to each new employee of the Corporation. All employees are eligible to participate in the Savings Plan in an effort to promote employee ownership. The Board of Directors is of the view that ownership of Shares motivates employees to report inappropriate, unethical or fraudulent behavior on the part of other employees, as such behavior could have a negative effect upon owners of Shares. Similarly, bonuses payable to employees under existing bonus plans (which, in large measure, are tied to return on invested capital) would be negatively impacted by inappropriate, unethical or fraudulent behavior on the part of other employees and the Board of Directors is of the view that existing bonus plans also provide an incentive to employees to report inappropriate, unethical or fraudulent behavior on the part of other employees. The Board of Directors has also implemented a "whistleblower" policy.

Directors that together contribute the right mix of skills and expertise to the Board of Directors. To assist in making those recommendations, the Board of Directors regularly conducts both formal and informal reviews of the effectiveness of the Board of Directors and individual Board members.

The Board of Directors is concerned that imposing arbitrary and inflexible director term limits discount the value of experience in the Corporation's history and culture and the importance of continuity. Mandatory retirement ages pose the same risk and the Board of Directors does not want to risk the loss of key directors to retirement policies that may be unnecessarily arbitrary and inflexible when they force a high performing director off the Board of Directors. As a result, the Board of Directors believes that it would not be appropriate to set term limits for its directors but rather relies on the collective experience and judgment of its members to determine when Board of Director renewals, Board of Director removals and Board of Director additions are appropriate. Shareholder feedback and voting results are also considered by the Board of Directors in this regard.

11. Policies Regarding the Representation of Women on the Board

The objectives of the Diversity Policy are to maintain appropriate diversity on the Board of Directors and on the Corporation's executive team.
